The owner of the last tract of developable land in Grassmere Business Park is seeking a buyer.

Richland Investments has reached out to local developers and real estate investors regarding a 3.5-acre site at 652 Grassmere Park Road. The property is currently leased as a parking lot to a single tenant.

"It appears that there is scarcity of land and parking in the park," said [Michelle Kirsch](#), who handles Richland's acquisitions and dispositions. Richland has not disclosed an asking price for the property.

Grassmere is an office and industrial park consisting of more than 600,000 square feet of space.
